Isolated 96GB GPU (Zero Public Cloud)

€2,250 / mo
All-In B2B Retainer (+ €1,500 Setup)

- **The Problem With Traditional Reception & Screening Staff:** Hiring 1 full-time receptionist, guest-relations coordinator, or candidate screener costs €38,000–€45,000/yr (£35,000–£40,000/yr) plus 11.4% Irish Employer PRSI (or 15% UK Employer NI), holiday pay, and HR overhead—yet still leaves 128 hours every week (nights, weekends, and peak call surges) completely uncovered.
- **Our Turnkey Solution:** We deploy an isolated, enterprise-grade Voice, WhatsApp & Operations Pod hosted on our dedicated 96GB NVIDIA Blackwell GPU infrastructure (zero OpenAI/public-cloud data leakage) backed by a live human operations specialist in our Dubai hub.
- **Sub-400ms 24/7 Inbound & Outbound Execution:** Answers every phone call (VoLTE/SIP) and WhatsApp message instantly in natural English or Arabic—handling holiday-home midnight check-ins, tenant maintenance triage, candidate technical pre-screening, or clinic appointment bookings.
- **Live Human-in-the-Loop Escalation (10% Edge Cases):** Whenever a call requires physical dispatch (e.g., an urgent AC/plumber dispatch in Dubai/London or booking a final partner interview), our live operations desk steps in seamlessly to close the loop.
